

I just received an email testimony from a pastor who said that a woman, paralyzed in the legs, read my book, applied the teaching and was totally healed through self deliverance!

This woman lives 8000 miles from me and we never met!

Here's an excerpt from an email I received this week from an 18 year old:
 "while I am reading your book my spirit is on fire to preach the gospel in the whole world."

This man is 8600 miles from me and we never met!

One of my most favourite teachers died about 200 years ago.

Daniel Nash worked with Charles Finney. Finney credited Nash with being the spiritual leader responsible for 100's of thousands being saved, through his strategic spiritual battles before crusades.

Fortunately, Finney wrote briefly of Nash and his abilities, as Nash wrote nothing (that is known) himself.

God brought this man to my attention through Finney's notes and showed me the possibilities.

This man is 200 years from me and we never met!

Imagine what more would have been available to me and countless leaders and teachers, had Nash wrote down exactly what he did and experienced, in order to teach others, even long after his death!

The power of teaching!

The power of multiplication!

The power of God!

Had Nash been less secretive and wrote a book or even left notes to be put into a book one day, he would have been able to multiply himself to an even greater degree, like the loaves and the fishes, which would have very well assisted numerous more captives in being set free and inspired many more to become teachers.

For this I am upset with Nash... he could have multiplied himself to a much further degree.

For this I am grateful to Nash, as he taught me the folly of keeping food from God to myself.

Jesus said, **"Feed My sheep."** John 21:17b

When we receive food (revelation, gifts and experiences) from God, freely share it with others and record it, such as in a journal, in a website or on CD or DVD... or YouTube it!
 You may have no idea how valuable this will be to others and also to yourself, even years from now.

To verify how important the "miracle of multiplication" is to God (and us), it is **the only miracle mentioned in all four Gospels!** (other than the Resurrection)

This miracle can transcend time and distance, as I've just testified.

We need to practise this "alpha" miracle to multiply ourselves, as Jesus did, with men, women and children. (This miracle has other, deeper, spectacular facets that I will teach another time.)

Spread yourself around!
